USE RADIO SNARES TO CATCH CROOKS

On the outskirts of Lansing, Mich., a one-story brick building is the heart of an experiment watched by the whole nation. Here the first state-wide police radio hook-up is an actuality. Radio waves from this broadcasting station will warn state, county and local police to watch for fleeing criminals. Similar broadcasting stations planned in other parts of the country, make radio one of the most effective weapons of law enforcement.

Last spring President Hoover requested and appropriation to put radio sets in 16 police cars in the District of Columbia. In more than 40 large American cities radio equipped police cars are patrolling the streets saving seconds in the race with crime. In 20 months, 1800 "radio arrests" were made in Detroit and the average time for each arrest was 90 seconds.

One night last winter a radio car was patrolling a section of Detroit when ordered to a home where burglars were reported. It picked up the message when it was a block from the house. In less than 30 seconds the burglars were under arrest.

Such broadcast alarms are repeated three times so there will be no mistake. One Indianapolis police car last January picked up a description of two Negroes who had held up a filling station and captured them before they had gone six blocks. As they were hauled into the police car the third broadcast was just beginning. One of the Negroes rolled his eyes at the box and said "Booy! Listen to that thing telling on us."

Before radio and the automobile were combined to make possible such amazing speedy arrests, police cars were out of touch with headquarters for long stretches. Now they can be reached instantly and can be given additional clues, while pursuit is in progress. Messages come in as clearly at 70 miles an hour as at 15.

One of the first cities to broadcast alarms was Detroit in 1921. Tantalizing years of partial success followed. In 1927 Commissioner William P. Rutledge, who had fathered the idea, closed down the sending station. The experiment apparently had failed. Reception by the sets was uneven and hard usage frequently put them out of order. At this point Kenneth R. Cox, a young traffic cop, whose hobby was radio, asked permission to try his hand at ironing out the system. With the aid of several radio fans on the force he began to work. The sending station was moved to Belle Isle where it was free of interference and an improved receiving set was designed for the cars. The new equipment worked satisfactorily. When about 40 radio-equipped cars were operating in Detroit, Cox was loaned to Chicago to install equipment in 142 police cars. Meanwhile the other large cities had been making experiments. Seattle added ten "prowler" cars, radio equipped and Cleveland 35.

At first the radio alarms sent out through regular broadcasting channels had disadvantages. One Chicago woman reported that a burglar was looting an apartment across the street. When a radio car reached the apartment the robber was gone. In one corner the radio was going full blast and under its lid was tucked this note: "Thanks for the tip." There is another reason why broadcasting police alarms through regular channels is unsatisfactory. Soon after Detroit began experimenting a police official walking down a side street heard a popular dance tune coming from a parked police automobile. To prevent crews from listening to Amos 'n' Andy instead of headquarters, modern police sets are made so they can be tuned in only on the home station.

What goes on behind the scenes when a spectacular arrest is made? At Detroit headquarters a dispatcher is in direct communication with the police broadcasting station. When the report of a crime comes in he presses a button. A red light then flashes. Out of a loud speaker comes the message from the dispatcher. An announcer repeats it into a microphone. Frequently crews in the cars can hear the dispatcher himself and start on the run before the dispatcher relays the order. Since radio has been aiding officers of the peace, first-hand evidence of crimes has been easier to obtain. Former Police Commissioner Rutledge of Detroit says convictions

have increased early 20 per cent. The police cars are able to swoop down upon the lawbreakers and prevent them from destroying evidence. For example, a few weeks ago in Detroit, a telephone call reported a brutal murder. A car picked up the alarm not far from the scene of the crime. In two minutes the killer was arrested, just as he was about to throw the gun in a creek. But for radio, this important piece of evidence would have disappeared.

One of the most valuable jobs the radio-police car is doing is recovering stolen automobiles. In eight months, 80 machines were recovered with its help in Indianapolis. In Dallas more autos were recovered each month than are reported stolen. The reason is that many machines stolen in other cities are recovered there. Both short-wave and long-wave broadcasts are made in Dallas—the short wave to the police and firemen, the long wave to the public as well.

The Federal Radio Commission because it feared interference might result, has turned down requests for a number of police radio stations. It has also ruled that their power must depend upon the size of the city. Yet even the lowest far beyond the city outskirts. In many places county police and the sheriffs turn in regularly.

For instance, when a pair of bandits robbed a Texas pharmacy Dallas police broadcast a description of the crooks and the car they drove. In Durant, Oklahoma, Sheriff Taylor picked up the report. Three hours later a fast roadster screeched to a stop where Sheriff Taylor's car blocked the highway. The two thugs surrendered at the point of a gun and seven hours after the broadcast were behind the prison bars in Dallas.

Such quick apprehension of criminals is one of the most effective checks upon law breaking. In most cities where radio-cars have been installed the crime chart has taken a distinct downward trend. Seven times in two weeks Detroit machines reached the spot in time to prevent burglaries.

What is probably the most elaborate radio-equipment in the whole world is operated by Scotland Yard, London. Sixty specially built, powerful machines are camouflaged as furniture vans, vegetable trucks, or luxurious limousines with liveried chauffeurs. Each is manned by a crack speed driver and picks up a crew and is capable of 70 miles an hour. In Michigan banks are being supplied with direct telephone connection with the broadcasting station at Lansing. The instant one is robbed a state-wide radio net will then be spread to snare the criminals.

In the not distant future, the former Police Commissioner Rutledge prophesies the whole United States will be linked by police wireless so that in the event of a major crime every police station and sheriff's office in the country will receive warning simultaneously.

HOSPITAL INSURANCE

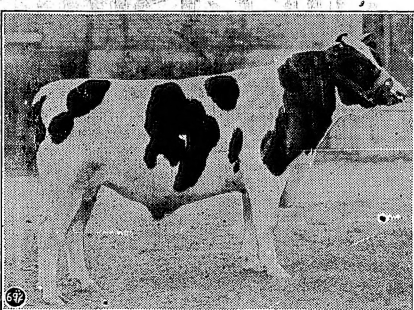

It is a truism that one will appreciate to home, his home town and his home province more, if he is away for a while. The advantages, which he so frequently takes as a matter of course and values so lightly, before journeying in distant parts, are often seen in their true perspective from a distance. The wanderer from the old home town invariably places more value upon "Main Street" than the chap who has never experienced a prolonged absence from his home and environs.

For instance, take the municipal hospital service which has proved so successful in Alberta. Those who receive

Keep Free From Fat--Feel Younger
Unlike most salts, Kruschen isn't simply a laxative--if that's all you want any kind of salt with any kind of a label will do--but is that all you want?

When you take Kruschen Salts you not only stimulate your bowels, liver and kidneys to function naturally and perfectly, but you supply every internal organ, gland, nerve and fibre in the body with nature's own revitalizing and rejuvenating minerals. Get a bottle of Kruschen Salts at any drug store--take one-half teaspoon in a glass of hot water every morning before breakfast--cut down on sweets and fat forming foods and get some moderate regular exercise--in just a few days noticeable changes to activity and life grows brighter. A Virginia woman writes: "I just took a bottle of Kruschen Salts and have been losing flesh right along--you have fathomed the secret of flesh reduction."

Outstanding Champion

Meet Mr. "Strathmore C. Koba Fairchild," prize bull who has been awarded Reserve All American honors by a committee in the United States appointed by the American Holstein-Friesian Association. In addition he won first prize at the recent Royal Canadian Winter Show in Toronto. Strathmore Mary Koba was Reserve All American Junior yearling heifer, 1930. Both animals were bred at the Canadian Pacific Experimental Farm at Strathmore, Alberta. The Strathmore and Tilley farms, operated by the Agricultural Branch of the Canadian Pacific Railway, made a very remarkable showing at the Toronto show last November. Suffolk sheep from the Tilley farm won every first and second prize and all championships including Champion ewe. In Hampshire the flock from Tilley farm won four firsts including Grand Champion ewe, reserve Grand Champion ram and Champion wether. Holsteins from the Strathmore farm won the coveted Haley & Lee trophy for the second time. Altogether the sheep from the Tilley farm and the cattle from Strathmore farm won eighty-two firsts, twenty-four second and eleven Championships and Reserve Championships.

side within municipal hospital districts; who have forgotten what conditions were like before the late Hon. A. G. MacKay introduced such a system in this province, would appreciate the advantages of such a hospital service more if they were to live for time in those provinces of Canada so favored in this connection. Comparisons are odious and it is unnecessary to reflect upon any particular province as being less progressive than our own, but the fact remains that Albertans have a great gift to humanity in their municipal hospitals, and the value of these institutions are frequently valued too lightly.

A glance at the Hanna Municipal Hospital on any evening, and one can see the lights of probably twenty private rooms. Every one of these lighted windows indicates that some sick person is getting a comfortable room, expert nursing service, good food,

proper medical care and in fact everything which medical science and our health departments can devise to hasten his recovery. And, that patient may secure all these for the sum of one dollar per day. Compare this rate with that charged for similar services in institutions not operated on the plan of our Alberta municipal hospitals, where the patient would be paying six times the above daily fee.

Residents of other provinces, when told of the hospital system in vogue throughout Alberta, marvel at its advantages, and hope that the day may soon come when they, too, may profit by such a service. We, on the other hand, accept the service as a matter of course, or perhaps overlook it entirely -- until we require it--Hanna Herald.

The Times does commercial printing at right prices.

THANKFUL

(By Edna Jacques)

Naught to be thankful for, did you say, As you sat by the old garage today. The crops are poor and the cattle thin, And the apuds are not what they might have been. And there isn't much you can sell this year, You're going to be very hard up you fear.

Well, what if you are, why man alive, If you have to struggle and skimp and strive, And pinch a dollar until it hurts, For winter woollens and shoes and shirts. We've all been over the trail before, And poverty's often knocked at the door.

It won't hurt you a bit, old man, you know, If you have to put the gears in low. When the crops were good and the prices high, Say, didn't we soar and spend and fly, The sky was the limit, we took the air, And blew our crops like a millionaire.

But there's always a time when we have to pay, And the bills pile up for a rainy day. And you start to think where you might have stood If you'd kept your head when the crops were good. But cars cost money, and trips, Oh, say, The dough has a habit of melting away.

And what crops we had in our countryside, When the wheat threshed out like a golden tide. And the god of harvest with lavish hand, Scattered his riches across the land. When the wheat poured out on the grainery floor, And there wasn't room for a bushel more.

But let's forget what we might have done, There'll be more harvests and rain and sun. And let's be decent and take the blame, And be sports enough to play the game. And let's come down to earth and stay, And get a grip on the things that pay.

"I'm so glad we found a breakfast they like."

"Thank goodness for Shredded Wheat! The children just wouldn't eat breakfast and I was so tired of coaxing them. But when they tried the crisp, tasty biscuits, floating in milk and cream, they were delighted. And best of all--Shredded Wheat is ideal for children. It's just the food to build bone and muscle."

THE CANADIAN SHREDDED WHEAT COMPANY, LTD.

SHREDDED WHEAT

WITH ALL THE BRAN OF THE WHOLE WHEAT

IS YOUR POWER COSTING YOU TWICE WHAT IT SHOULD?

In the Olds district last year, on upwards of twenty farms, tests were made to ascertain the cost of operating tractors. In addition to getting the actual cost of doing the work two other noteworthy facts were established--first, that most of the tractors were not carrying the load they should; and second, that the operating cost decreased as the load increased.

Sixteen tractors, of various makes, led by their regular operators, had an aggregate drawbar rating of 802 h.p. The dynamometer machine to measure the drawbar pull--showed that when working, these tractors were using only 197.3 h.p. or a trifle less than two-thirds of their rated power.

Only one tractor was using its full rated power, while several were using only about half their rated load. To compare the cost of the work being done by these different machines it was found necessary to reduce the expenses (including only fuel, oil and wages) to a common basis--the cost of producing one h.p. at the drawbar for one hour. The following figures show some of the variations:

1	15-30	8.6	14½¢
2	15-30	8.6	13¼¢
3	22-36	9.6	11½¢
4	22-36	14.1	8¼¢
5	22-36	14.5	6½¢
6	20-30	20.2	5¼¢

Tractor No. 1 working at less than half its rated capacity delivered one h.p. at the drawbar for 14½¢; with a heavier load the cost was reduced to 13¼¢, while tractor No. 4, working at its full rated capacity, did the same amount of work for 5¼¢.

Another illustration. A tractor op-

erator in 1928 has to use a three-bottom plow although his tractor could have handled one with four bottoms. During the season 600 acres of stubble and fallow land were plowed averaging twenty-five acres per drum of gas.

The following year a four bottom plow was used and 500 acres plowed, but this time, the average was 30 acres to the drum. If the larger plow had been used in 1928 the saving would have amounted to 150 gallons of gas. How far would that run your car?

Moral--Load your tractor to its full rated capacity and save money. (Next week we shall add a few explanatory notes to this subject.) (By F. F. Parkinson, Lecturer in Gas Engines, O.S.A., Olds, Alta.)

Mary -- "Going to bed, Mother? Aren't you going to sit up and wait for Dad?"

Mother -- "What's the use? I have such a cold I can hardly speak."

PROTECTION FOR MOUTH AND THROAT

Exposure to damp weather, excessive use of voice, or smoking are frequently the source of irritated, sore throats. Unless promptly cared for serious complications often follow. A gargle of one part Absorbine, Jr., to nine parts water will bring quick relief to the inflamed tissues. And if there is congestion with the infection, as usually happens, break it up at once by rubbing the outside of the throat with a few drops of full-strength Absorbine, Jr.

To sweeten the breath and keep the mouth in a clean, wholesome condition at all times, the daily use of Absorbine, Jr., diluted as a mouth-wash, is ideal. Just a few drops in a little water morning and night. Get a bottle at your druggist's--\$1.25.

Was Troubled With INDIGESTION After Every Meal

For the past 33 years MANUFACTURED ONLY BY THE T. MILBURN CO., Limited Toronto, Ont.

B. B. B. is the medicine the sufferer from dyspepsia or indigestion requires to put the stomach into shape as it regulates the bowels, promotes perfect digestion, tones up the stomach, and restores perfect health to the system.

Mrs. J. D. Higgins, Onward, Sask., writes: "I was troubled with indigestion after every meal, and could hardly stand the pain in my stomach. A friend advised Burdock Blood Bitters and after the first bottle I was greatly relieved. I have now finished the third bottle, and am now eating any thing I like and enjoy my meals without that terrible indigestion I had suffered after every meal."

BLOOD PRESSURE

The blood in our bodies is constantly in circulation. The heart, which fills with blood between beats, thrusts out this blood each time it contracts, thus causing it to circulate. This thrust, or impulse, given by the heart, is carried right along the blood stream, in the arteries, and can be felt at various points in the body, notably at the wrist, where it is called the pulse.

The degree of blood pressure varies in different people; indeed, it varies in the same person, from hour to hour, depending upon a number of factors, such as activity and rest. Variations in the blood pressure within certain limits, are normal; outside of such limits, if the condition persists, then it is abnormal. If the blood pressure is persistently above or below the normal, this is a symptom which suggests some disturbance of the functions of the body, or the existence of some diseased condition.

Frequently someone states that he is suffering from high blood pressure, such an individual evidently being under the impression that high blood pressure is a definite disease. It is not a disease; it is only one symptom which may indicate disease. In the way that sugar or albumin in the urine is a sign of disease, so is high blood pressure a symptom of some abnormal condition.

About the worst thing that can happen to someone whose blood pressure is high is for him to become the type of individual who thinks or talks of nothing else. This is bad for himself and it is hard on his friends. It is not suggested that an abnormal blood pressure be ignored, but once advice has been received from the doctor as to treatment and

as to how to live, it would be ever so much better for the patient to follow that advice and stop fussing. We say this, because worry, and fussing only make the condition worse. Worry itself is a common cause of increased pressure. An increased blood pressure may be due to one of many causes. If the heart loses some of its power to contract, the pressure is affected. Other reasons for an abnormal blood pressure are loss of the elasticity which healthy arteries have, or kidney trouble, or the occurrence of some acute or chronic disease. It is easy to see, therefore, that there are many conditions, which are the real, underlying cause of alterations in the blood pressure.

The gravity, or otherwise of an increased blood pressure depends, first of all, upon what is causing the trouble, and then as to whether or not the cause can be removed or corrected by proper treatment.

In addition to the treatment directed towards the removal of the cause it is usually necessary that a new or altered mode of living be followed, at least for a time. This does not mean that the person becomes an invalid; indeed, far from it, because exercise or work which does not fatigue is actually helpful in most cases. But it is necessary that attention be given to diet, rest, fresh air, and such other apparently simple, but important matters. The individual who is over-weight must reduce. Alcohol must be given up.

Just what treatment is needed varies from case to case, and no two are exactly alike, and that is why needs advice and supervision on the part of the family doctor so that each may be told how to live in accordance with the particular requirements of his case.

Questions concerning Health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by letter.

By—Just one kiss, dear, would keep me happy for a week.
Girl—I'll fix you up for life.

MILK—THE SCHOOL CHILD'S BEST FOOD

(By W. S. Stephen, Secretary, National Dairy Council)

The child is the adult of tomorrow. The kind of food which he takes today determines to a considerable extent the fitness of the future citizen. Mothers and others who direct the feeding of the child have a responsibility which can not be overlooked. Good food habits should start today. Tomorrow may be too late.

Childhood is the period of growth. If children are to have strong bodies it is important that they use the best building material. Our children should have those foods containing a high protein content, such as milk, meat, fish, eggs, cheese, peas, beans, cereals and leafy vegetables. Protein is essential for building and repairing the muscle tissues. Milk contains a large per cent of this valuable element of food. We have no food that contains as many of the constituents necessary for growth and repair as does milk.

In addition to material for growth, children need fuel to keep the body warm and to supply energy for muscular activities. Milk contains those substances which provide good fuel. We have already spoken of the protein in milk which seems to be necessary for good health and bodily resistance. If more protein is obtained than can be used for tissue building it is used as fuel—giving heat and energy to the body.

Besides protein in milk there is also another important constituent fat. This fat—known in the form of cream and butter is a very valuable food. It supplies heat for warmth and energy to the body and forms adipose tissue. The mineral matter in milk is also an important constituent. Fat, this fat—known in the form of cream and butter is a very valuable food. It supplies heat for warmth and energy to the body and forms adipose tissue. The mineral matter in milk is also an important constituent. Fat, this fat—known in the form of cream and butter is a very valuable food. It supplies heat for warmth and energy to the body and forms adipose tissue. The mineral matter in milk is also an important constituent.

Just what treatment is needed varies from case to case, and no two are exactly alike, and that is why needs advice and supervision on the part of the family doctor so that each may be told how to live in accordance with the particular requirements of his case.

Bladder Troubles Bother Many Past 40

Seven Out of Ten Are Victims But Writings of Dr. Southworth's "Bladder Weakness, Relief, With Renewed Vital Force"

"No one knows better than I, the horror of joyless days and sleepless nights. There have been times when I felt hopeless and helpless—and when my weakness caused me the most intense humiliation. Only those who have gone through such a struggle can possibly realize my great satisfaction when Dr. Southworth's URATABS brought me quick relief. URATABS are truly wonderful, and I give them full praise." Such amazing evidence serves as convincing proof of the power of URATABS to relieve those distressing ailments so often a handicap to those in middle life.

Overworked, sluggish kidneys, and Bladder Weakness, bring on so many distressing ailments which so often lead to serious diseases that every sufferer from Lameness, Pains in back and down through groin, scanty but frequent urination, "Getting-up-Nights," Nervous Irritability and Lack of Force—should try the amazing value of Dr. Southworth's URATABS at once! Any good drugstore will supply you on a guarantee of satisfaction or money back.

REFERENDUM ON 100 PER CENT POOL

The Alberta Wheat Pool will conduct a referendum on the question of an one hundred per cent Pool next summer when the annual election of delegates is being held. A ballot will be sent to each member on which the following question will be asked: "Are you in favor of an one hundred per cent Pool by legislation?"

BAYER ASPIRIN is always SAFE

Beware of Imitations

GENUINE Bayer Aspirin, the kind doctors prescribe and millions of users have proven safe for more than thirty years, can easily be identified by the name Bayer and the word genuine as above.

Genuine Bayer Aspirin is safe and sure; always the same. It has the unqualified endorsement of physicians and druggists everywhere. It doesn't depress the heart. No harmful after-effects follow its use.

Bayer Aspirin is the universal antidote for pains of all kinds.

Headaches Neuritis
Colds Neuralgia
Sore Throat Lumbago
Rheumatism Toothache

Aspirin is the trade-mark of Bayer manufacture of monosaccharide of salicylic acid.

CHILDRENS COLDS

LACOMBE TO HAVE NEW FARM SCHOOL

The federal department of agriculture is planning the construction of a farm school with accommodation for 50 pupils and a dormitory in conjunction with the experimental farm at Lacombe where practical farming only will be taught.

Hon. Mr. Weir, after addressing a meeting of Alberta livestock men, left for Olds by automobile, accompanied by Hon. G. H. Hoadley, minister of health and agriculture in the provincial government.

The minister made it clear that practical farming only will be taught at the new school. It had been felt for some time, he said, that the valuable information made available through the operation of the experimental farm could be put to better use if pupils were right on the ground. Livestock feeding of all kinds will also be included in the curriculum.

Mr. Weir also said the proposed school would not interfere in any way with the operation of the provincial school of Agriculture at Olds.

Knowledge Incomplete
Pat called on the priest and said: "Father, can I ask you a question?"

"Sure, Pat," said the priest.
"Well, Father," said Pat, "I know all about Shrove Tuesday, Ash Wednesday and Good Friday, but what the devil is Nut Sunday?"

Here and There

(631)
More than two million fingerling salmon and 40,000 trout yearlings were placed in Nova Scotia lakes and streams during 1930 from the fish hatchery at Lake George.

About \$80,000,000 was spent in Canada in 1930 on hydro-electric power development and installations and it is expected that fully \$300,000,000 will be spent for a similar purpose during the next three years.

Consumption of natural gas in Canada during 1930 for domestic purposes was calculated to be sufficient to displace 640,000 tons of coal. Natural gas is found in abundance in Alberta and some parts of Western Ontario, and the Maritime Provinces.

Province of New Brunswick's representation at Sportsmen's Shows in the United States this year will be larger than ever and new territory will be invaded. Its first exhibit will be at the New England Sportsmen's Show at Boston, February 7-14, and also at the Philadelphia Sportsmen's and Motor Boat Show, February 21-28.

Six thousand pounds of unfrozen white fish from Northern Saskatchewan recently won by Canadian Pacific from Prince Albert to Winnipeg and points beyond. It was carried 150 miles to Prince Albert by aeroplane in one hour and a quarter, a trip that would by ordinary means have taken from eight to eleven days.

When a 22-year-old woman recently fell from the wharf at Pier D, Vancouver, into the dangerous rapids of Burrard Inlet, William Hill, assistant chief clerk of the British Columbia Coast Steamship Company of the Canadian Pacific Railway, without hesitation dived in and after a 20-minute battle in the chill waters succeeded in getting her ashore. The woman will recover.

All Canada from hors d'oeuvres to dessert was represented at the first dinner served to the former Governor-General of Canada, Viscount Willingdon, on Canadian Pacific liner Montclare, which sailed for England recently. Starting with Saint John oysters, it included supreme of Nova Scotia sole, saddle of western lamb, roast Ontario chicken, and bomb maple leaf as a sweet.

Work has started on the building of the British Columbia link of the Trans-Canada Telephone Line. A direct system through the Crow's Nest Pass to Alberta will be provided to replace the present system of routing telephone calls to and from British Columbia across the United States via Seattle. The proposed system will cost \$1,250,000 and will involve some 655 miles of telephone lines, 125 miles of which have already been built.

Marriage at sea has happened before and it likely happen again, but the distinction of being baptised at sea is claimed to be unique and this occurred when two infant children were baptised in mid-Atlantic by Dr. Oliver C. Rankin, Scottish minister aboard Canadian Pacific liner Montclare, recently. The mothers and children were coming out to Canada from Great Britain and the minister is giving a course of lectures at McGill University.

PRESS BULLETIN

(By Dr. T. E. Smith, University of Alberta.)

Consuming Interests
Once in a while one is fortunate in coming across a child who has a consuming interest in something. Usually children's interests are transitory and sporadic. But here is a boy who persists in building and flying miniature aeroplanes, and there is another who for years has been raising rabbits and guinea pigs. Or here is a girl who draws and paints everything in sight, and another who is forever writing stories.

A genuine interest is an asset of the first order. It centers and focuses attention, generates new enthusiasm and directs all sorts of activities.

A Budding Engineer

Alex Kuchko had a passion for engines. He knew them all; gas engines, coal engines, oil engines, all were objects of interest and admiration. But his chief hobby was studying the compressed air engine. He knew that such an engine could be built which would be far more efficient and economical than any yet devised, and he was the one who could do it.

He spent every available minute on his plans and drawings. Everything else was a waste of time. At home he was given little opportunity and less consideration by his parents. At school things were not much better. There were reading and writing, geography and history, and even arithmetic to be got through. Of course Alex was always on the border line of failure, usually on the wrong side of the line altogether. His disposition and behaviour were none of the best.

At last, fortunately, he found himself in a Grade VII room with a teacher who recognized him as a human being with a purpose. This teacher examined his drawings and listened to his plans. He became his confidant and adviser. He pointed out to the lad that one must master arithmetic in order to be a draftsman, must master composition and languages in order to design and to be understood. In short, the school subjects became tools or instruments for acquiring knowledge. The boy no longer had to be driven to school and made to learn his lessons. He could not be kept away.

Interests Come First

Interests are the most valuable things children bring to school. Some teachers imagine that intelligence is the first consideration, others think that manners or cleanliness come first. Many others consider docility as the highest qualification, the willingness to "fit in," to do precisely as told without question or even preference. These qualities are essential in military life where uniformity and routine are fundamental. But in school life where personality is in the making they should be of secondary consideration.

Many children have no particular interests, none at least that can be readily discovered. Such children are found in the upper grades of the elementary school, in the high schools, and in large numbers in the universities. One suspects that frequently the youthful interests have been killed by the schools.

When a genuine interest is found it should be regarded as a gift—a vital power which may turn the dulled subjects into fairy tales and transform a mere existence into a dynamic personality.

THE OLD EXCUSE

(By Walt Mason)
If there were no tax to grind us, we would lose our best excuse, when solicitors remind us of the coin we should produce, we should dig with action speedy, to assist the sad and needy, and to give the poor and needy which may turn the dulled subjects into fairy tales and transform a mere existence into a dynamic personality.

A FAMILY DOCTOR'S LAXATIVE IS BEST

Your health is too important! You cannot afford to experiment with your delicate bowels when coated tongue, bad breath, headache, gas, nausea, feverishness, lack of appetite, no energy, etc., are the result of constipation. This applies not only to grown people, but more particularly to children. That's why a family doctor's laxative is always the safe choice.

Dr. Caldwell's Syrup Pepsin is prepared today under strict laboratory supervision from fresh laxative herbs and other pure ingredients, and exactly according to Dr. Caldwell's original prescription. Today, millions of families rely on Dr. Caldwell's judgment in the selection of their laxative. For Dr. Caldwell's Syrup Pepsin, in bottles ready for use, sold in all drugstores, is now the largest selling laxative in the world!

102 million more cups of Salada tea were consumed in 1930 than in 1929 by the people of Canada.

but the taxes are so frightful that they fill us with despair; we are eager, we are willing to hand out the shilling, but the taxes keep us drilling, hunting, hoping, everywhere. Now there come some earnest thinkers, keen to do some kindly deeds, and "A home for the gentlemen and scholars, but we've hot beneath our collars, we must save our store of dollars for the tax collector's needs. It is always being hinted we should act like Santa Claus, and appeals are daily printed for our help in some good cause; but the tax collector's swearing, and we're weary and despairing, and the burden we are bearing is the worst that ever came down upon us in his blindness, dampen all our pleasant zeal, holds us back from deeds of kindness, however kindly we may feel; we would like to be a blessing in this world where we are and keep the stomach sweet and messing, but the tax is so distressing, strong and digestion perfect. It is that we label it a steal. So doing this every day for thousands—there is no use in passing any contribution box, with gadding and tribulation, we refuse to give the rocks; we would make the world more

Gas In Stomach Hurts the Heart

Don't suffer from dangerous gas pressing around your heart, from sourness, bloating or pain of acid indigestion. Stop worrying. Your stomach, all our simply needs an alkaline. For safe, speedy, certain relief take a little Blaurated Magnesia—powder or tablets. It quickly breaks up the gas, neutralizes the acid, stops the pain, and keeps the stomach sweet and messing, but the tax is so distressing, strong and digestion perfect. It is that we label it a steal. So doing this every day for thousands—there is no use in passing any contribution box, with gadding and tribulation, we refuse to give the rocks; we would make the world more

SUFFERED FROM BACKACHES When Doing Her Housework

Mrs. Geo. Dennis, Leask, Sask., writes:—"I suffered, for four years, from backaches when I was doing my housework. A friend told me about Doan's Kidney Pills. I have taken five boxes and am now feeling fine again; lots of ambition to do my own work, washing, etc. The pains in my back are completely gone, and the puffiness under my eyes has disappeared. I recommend Doan's Kidney Pills to all suffering women."

Price, 50 cents a box at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Neighborhood NEWS

HILLSIDE

H. G. Young returned from Calgary on Saturday.
Mr. and Mrs. T. H. Howes were visitors to Wetaskiwin on Saturday. Mr. Howes assisted Mr. A. Moore, Dairy Promoter, at a successful meeting which was held to organize a Cow Testing Association.

Mr. R. C. Young, resident Police Magistrate, will be taking up his residence in Leduc in the near future.

The lecture on Agriculture Research by Donald Cameron of the University of Alberta, Edmonton, held in the school hall on Friday evening last was very much appreciated by the fair sized audience.

Several of the younger set took in the I.O.O.F. dance held in Milliet on Monday evening.

Old and young will join in the "hop" on a good night of snappy music in the school house on Friday evening, the 6th.

Miss Barbara Marr of the Anthony Hill school, spent last weekend with her parents, Mr. and Mrs. L. W. Marr.

Mr. and Mrs. Briggs of Milliet, were Sunday callers in the district.

The mild weather continues, several spring birds were seen and heard the latter part of the week.

WINFIELD

This unprecedented fine weather certainly shortens the winter—if we are to have any. But it has wrought some hardship in this community where so many people depend on the lumber industry as a means of earning their livelihood.

Edwin Engblom is around again after his recent accident.

Wednesday of last week was "Hog day." Among those noticed in town with loads of hogs were C. B. Long, Joe Battistini, Alfred Bur, I. O. Gibbons and I. W. Bunney.

Little Miss Norma Richardson of Buck Creek, is stopping with Mrs. W. A. Brown and attending this school.

The U.F.A. announce that their concert takes place on Feb. 20th.

Mrs. Bernard spent the weekend at Battle Lake.

The U.F.A. dance in the hall last Friday evening was very successful. A four-piece orchestra, composed of piano, violin, guitar and drums, was in attendance. The musicians were Mrs. Francis and sons, Lester and Eugene, and Chris, Enghaf.

Mr. and Mrs. Taylor and son Murray, spent the weekend as guests of Mr. and Mrs. Handbury.

BITTERN LAKE

E. W. Alm was sawing wood for E. Elgert on Friday, and Wm. Ramsell was sawing for F. Treleven on Thursday.

Bittern Lake and Duhamel played hockey at Bittern Lake on Sunday. The score being 6-0 in favor of Bittern Lake.

Bittern Lake lineup: D. Gouchee, Leroy Treleven, A. Treleven, M. Butcher, R. Roper, G. Butcher, A. Holmstrom, O. Butcher, H. Ramsell.

Mrs. E. McNary's cousin of Leduc, returned home on Saturday.

Mrs. Wm. A. Altwater and daughter left for Turner Valley on Saturday, where she will visit with her sister, Mrs. N. E. Wright.

Ed. Lyseg of Wetaskiwin, was a visitor here during the week.

A debate will be held in the Bittern Lake hall on Wednesday, February 11th, between the Hillside and Gwynne U.F.A., no doing away with the beer parlors.

A. V. Howarth left for Edmonton, where he has taken a position with the Edmonton police force, as constable.

A number of the Bittern Lake people took in the hockey game played in Camrose between Wetaskiwin and Camrose, on Saturday evening, and all reported a good game was played.

C. S. Smith gave a dance on Saturday night, and everyone who went reported a good time.

FALUN

An exciting hockey game was played at Chesterwood on Sunday afternoon, when Falun defeated the Chesterwood team, the score being 2-0.

The next meeting of the Falun W.I. will be held at the home of Mrs. F. Eadie on Saturday afternoon, February 7th.

The Live Wires had a "whoopie" of a time on Saturday. The January sun glared down on them mercilessly as they hiked to Rapid Creek ravine. They pitched their camp on the high bank overlooking the gorgeous wintry scene. While bacon and eggs were frying and the coffee was sizzling, a hoof-knocking number for a program was rehearsed on the clearing, which further augmented their appetites. The added attractions of the day were Here we go round the mulberry bush, and "The farmer in the dell," performed on the ice below. The hikers were barely escaped being arrested, for speeding on the homeward march, as they kept time to the tune, played, on a pair and frying pan, with the aid of spoons and sticks.

NEW SWEDEN

Miss Elvera Lilledahl left for Edmonton on Monday, where she begins training for a nurse at the Royal Alexandra hospital. Her many friends

here gathered on Wednesday evening to enjoy a social evening with her before leaving. On Friday evening a number of young people from Wetaskiwin came out to wish her success in her new undertaking.

Mrs. O. Elisson returned home last week from the Wetaskiwin hospital, where she had been undergoing treatment for a few days.

Mr. and Mrs. Ray Peterson are the proud parents of a baby girl.

Mrs. E. B. Switzer is spending a week with relatives in Edmonton.

Mrs. P. Pearson has been quite ill the past week, and we hope she is now on the road to recovery.

Norman Doupe is erecting an attractive bungalow on his farm here.

"Are you removing your telephone?" is the standing question in Cherry Grove at present.

The Swedish Mission Ladies' Aid held at A. Swanson's on Wednesday last, with a very good crowd present.

Miss Inez Thronsdon of Camrose, has been spending a week here with her aunt, Mrs. Albin Swanson.

One of the department of education to finish the present school year.

Mrs. Albin Swanson has been in town nursing Mrs. C. Swanson, who has been quite sick for the past few days.

COLD COMFORT FOR FARMERS

Rt. Hon. R. B. Bennett's speech at Regina recently carried only cold comfort to the farmers of Western Canada. The promise of a couple of millions to assist them in becoming established in mixed farming is only a mild extension of that policy which has prevailed in the Dominion Department of Agriculture for many years.

The promise to assist in supplying seed grain has a ludicrous tinge. If there is one thing more than another that farmers already have too much of, it is seed grain—grain of all kinds, grain that they can scarcely give away.

Of course, there are a few districts in the West where the crop was not good, but even at that the West is simply full of seed grain.

The promise to open up a market in the Orient—China—has some possibilities, but not many. The only way to blast open the Chinese market for our Canadian wheat is for Canada to finance a loan for China—seemingly about as risky a financial procedure as pegging the price of wheat would be.

These were the highlights from an address of which much was expected. Not one of the Canadian leaders has expressed satisfaction with the prime minister's outlook or proposed methods of handling a crisis.

Somewhat illogically, Mr. Bennett blamed the former Liberal government for present conditions; then he turned right round and said that these conditions were world-wide and no one could help them; his undoubted skill at mingling fact and fancy was neatly exhibited in these remarks.

Not being able to resist a slam at Mr. Mackenzie King, Mr. Bennett expressed the opinion that had Mr. King gone to the Imperial conference, he wouldn't have done any more than he, Mr. Bennett, did. This was a perfectly safe statement, only it might have been justified by an additional remark that Mr. King couldn't have done any less, either.

The lamentable fact appears to be that Mr. Bennett, who counts his money by millions of dollars and who was never "hard up" in his whole life, is constitutionally unable to understand the plight a man who counts his liabilities by hundreds of dollars and his assets by nickels, and not too many of them at that.

No one doubts Mr. Bennett's sincerity of purpose and his desire to come to the rescue; but he simply doesn't know how to do it—and, to be perfectly fair to him, the Observer has to admit that no one else seems to know, either, so the prime minister has lots of company—Vegreville Observer.

HORSE SALE

Geo. F. Root will offer for sale, at Leduc, on February 19th, 1931, at 1 o'clock p.m., 20 high grade Percheron and mostly blacks, weights from 1500 to 1850 lbs., 4 and 5 years old; 2 Polo Pony Mares, 4 and 5 years old, four fair prices. LONE RIDGE JUNIOR U.F.A.

The regular meeting of the above was held at the home of Mr. and Mrs. C. Cummings on Tuesday, January 27th.

Mr. E. E. Sparks interested the Juniors very much by reading to them the speech delivered by the Junior President, Francis Fry, at the U.F.A. annual convention.

Another feature of the evening was the minute speeches delivered by the Juniors. These proved both humorous and instructive.

A most enjoyable evening was concluded by community singing.

The next meeting of the Juniors will be held at the home of Mr. and Mrs. Peter Olson on Wednesday, Feb. 11th. All young people are welcome.

No Problem. At All
"Oh, Mr. Jones," cried the landlady in a flutter, "I've seen a large rat in the pantry—what shall I do?"

The boarder looked up from his paper. "Shut the door," he returned, "and let it starve to death."

Dry, Hacking Cough Caused By a Neglected Cold

Dr. Wood's
Norway Pine Syrup

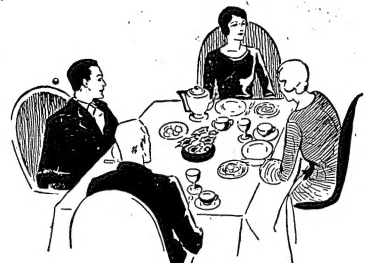

Mrs. James A. Stewart, Stollerton, N.S., writes:—"For some time I was troubled with a dry, hacking cough caused by a heavy cold I had, at first, neglected. A friend told me if I would take Dr. Wood's Norway Pine Syrup it would help me, so I got a bottle and it did relieve my cough."

"I am the mother of six children and use it for every one of them, when they have colds, and find it always gives relief, and I would not be without it in the house for anything."

Price, 35 cents a bottle; large family size, 65 cents; at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

MYSTERY

Who Cooked the Dinner?

A cordial host, a charming hostess, a delightful dinner. But who cooked it? Not a servant—there aren't any. Not the host, certainly. And as for the hostess—she's been to a matinee all afternoon.

Not such a mystery after all! It can all be traced back to the little dial on the Electric Range in this wise lady's kitchen. Before she left for the afternoon, you see, she adjusted it so that

cooking heat and cooking speed were just right for perfect results, put her dinner in the oven—and walked out. That's the magic of the Electric Range. It prepares perfect meals while you're far from the kitchen. And more than that—even if you don't return as soon as you expect, your dinner stays warm in the retained heat of the insulated oven.

Electric cookery is the clean, carefree, modern method.

Alberta Legislature

(Continued from Page 1)

sented by Mr. Andrews for the payment of arrears of taxes spread over a period of years without interest or penalties. He also advocated a reduction in the costs of legal proceedings and extension of the power of the debt adjustment bureau.

Another feature which Mr. Andrews commended to the attention of the house was the desirability of a half-rate license for farmers' trucks to be moved forward to August 1 instead of having it October 1, as it now stands. He thought that fields of taxation ought to be considered with a view to relieving the burden which exists upon the industry of agriculture.

A careful investigation on the part of the Government of the possibilities of the extension of vocational training with a view to opening up to a greater extent fields for boys and girls development was urged in order that they could more suitably adapt themselves to desirable occupations.

Edmonton, Feb. 4.—One of the liveliest sittings the legislature has experienced in recent years was that of Thursday afternoon when D. M. Duggan, leader of the provincial Conservative party, made his contribution to the debate on the speech from the throne.

The Conservative leader created no little furore with some of the policies he advocated and was the subject of frequent interruptions from Government and Labor benches during that part of his speech devoted to the recent provincial general election and the more recent Edmonton by-election.

Premier J. E. Brownlee and Fred J. White, Labor leader, both flew at the Conservative leader in refutation of statements made in respect to the Edmonton by-election and the Government's endorsement of Labor.

The Conservative leader put forth a strong plea for a representative government, claiming that the class government of a group, such as the United Farmers of Alberta, was not representative in that it spoke for only one section of the community and not for the province.

"Amid cries of 'Hear, hear,' from some of the Government benches, Mr. Duggan advocated, not benches ranged on both sides of the Speaker, but the formation of a horseshoe of benches with all members working for the common good."

Among the other policies advocated were relief of all residents in distress; rigid economy, including a reduction in salaries of civil servants and the seasonal indemnity of members; co-operation with the Dominion Government in efforts to raise the standard of quality of "live" and "market" for agricultural products; all projects with Government guarantee to be placed under the management of a special commission. Dealing with the Edmonton by-election, Mr. Duggan said in part:

"The Government of the day did not display any interest in putting a candidate and Labor was not particularly enthusiastic on account of the results of the general election in June and municipal election in November, but when it was found that one of the leaders of Labor could get the backing of the Premier of this Province, Labor decided to enter the contest. An unbiased examination of all the incidents leading up to the election brings us to the conclusion that there would not have been a contest, with the necessary expense involved, if the Premier had treated all candidates with equal consideration. Incidentally, just prior to this extraordinary action on the part of the Premier, he announced, according to press reports, that his Government would have some special plan of co-operation with all parties."

"No one disputes the right of the Government to put up its own candidate, no one disputes the right of the Premier to give his support to any particular candidate, but when the Government of the day enters a contest with a view to strengthening the forces of one opposition group as against another, it is difficult to see how the Government can expect much co-operation from other groups. If the Premier was sincere in endorsing Labor and its policies, it is difficult to understand why the members of the Labor party should now be sitting on this side of the House."

It was this part of Mr. Duggan's address that drew the fire of both Premier Brownlee and Mr. White. Mr. White rose and objected to the reference to Labor not being enthusiastic and suggested to the Conservative leader that he speak for his own party.

Premier Brownlee reminded Mr. Duggan that he had not entered the fray in support of Labor until after three candidates had been placed in the field.

Mr. Howley paid tribute to the late Colonel C. Y. Weaver and stated that while probably no member had more alterations on the floor of the House with the late Edmonton member than he yet they always walked out of the House together the best of friends.

He took exception to the references by George Webster, Liberal House leader, in his remarks on Monday about Dr. H. M. Tory, former head of the University of Alberta, in having had too many outside duties to perform as a result of which the province "lost a good professor and gained an inferior politician" and hoped that same fate would not befall Dr. R. C. Wallace, present head of the University of Alberta.

He had advocated a balanced system of agriculture and often had done so under considerable criticism for not having been advocating wheat growing at all times.

He felt that in moving toward this balanced state that insurance and mortgage companies would aid as fully as possible.

In reviewing the agricultural situation in general he stated that there had been a small increase in milk cows and a considerable increase in milk production. There had been 40 per cent more deliveries to dairies in Alberta in November of 1930 than in the corresponding month of 1929, while the increase in December was 61.8 per cent and in January 75 per cent. Eggs today were from 30 to 35 cents a dozen, whereas a year ago they were from 60 to 70 cents, this being attributable to mild open winters with hens laying well.

Cattle population of Alberta in 1929 was 1,535,000, while in 1930 it was 1,218,101, showing a decrease of 18 per cent.

He touched on the proposed \$5,000,000 fund by which farms of the West would be replenished with livestock. He did not express himself enthusiastically over the proposal as he foresaw complications in bidding in the open market for cattle. There was a price beyond which one could not go in buying stock.

Hog production had decreased in 1930 by 14 per cent, but he expected a 100 per cent increase in hogs going to market this year and indeed he should not be surprised if the number increased by 300 per cent.

Both sheep and poultry production had increased. In regard to poultry he stated that "Alberta stood alone," in that during 1930 no fewer than 63 carloads of turkeys had been exported from this province.

He mentioned his requirements for the coming season at 13,000,000 bushels and stated that application had been made to the Dominion Government for \$30,000, by way of a grant to rehabilitate the seed cleaning plant at the terminal elevator in this city.

Regarding health matters he said that there were 90 approved hospitals in the Province at the present time. There were 22 municipal institutions.

A study of the hospital situation was being made by the Government and it was already found that there were 3,952 beds in approved hospitals and 259 in private or a total of 4,212.

Edmonton, Feb. 3.—Sharp exchanges took place in the legislature on Monday between Premier J. E. Brownlee and George H. Webster, Liberal House leader, when the latter took up the afternoon debate on the speech from the throne and spoke for the greater part of the afternoon sitting.

These exchanges took place in Mr. Webster's remarks devoted to the unemployment relief measures given to the unemployed by the Government. He was repeatedly challenged on his facts by the Premier and some rapid cross-fire took place.

Mr. Webster wanted to know what the Government had done toward taking advantage of the Federal Government's offer in respect to relief. The cities, he claimed, had taken the initiative and forced leadership. Calgary was now carrying on a \$600,000 relief program of which the city paid one third, the Dominion one third and the province one third. Work was being supplied for married men.

Regarding the bush camps, he said there were about 500 men in the vicinity of Calgary for which the city paid 25 cents per man a day to the Government. There were 700 single men unemployed in the city receiving one meal and bed from the city.

DRIARD HOTEL

PAL-O-MINE CAFE

Good News for Everybody

WHILE the cost of commodities are going down we have reduced the PRICES but not the QUALITY of our meals:

OUR REGULAR 50c MEAL at the Counter NOW 40c	OUR REGULAR 55c MEAL at the Booths and Tables NOW 45c
--	---

TEA or COFFEE with PIE or SANDWICHES 5c

in place of 10c

NO CHARGE for TEA or COFFEE with SHORT ORDERS

CURT SMITH.

Mr. and Mrs. Farmer:

The Pal-o-mine invites you to make use of the hotel's accommodation, but we also make a bid for your patronage because we are a PRETTY GOOD CUSTOMER OF YOURS. Here are some average figures of goods we take from you yearly, either directly or indirectly.

Meats and Poultry	\$10,000
Butter, Eggs, Milk and Cream ..	6,000
Vegetables and Fruits	5,000
Bread and Flour	1,000

Approximate Totals \$22,000

YOU MAY INCREASE THESE FIGURES by patronizing our dining room and lunch counter when you are in town. Cooperation is our objective.

the cost of which was being split three ways.

Mr. Webster charged that the government had given no leadership in rural municipalities which were not so well organized. He wanted to know what portion of the \$5,000,000 grant from the Dominion had, been earned by this Province in supplying relief for families where work could not be found. He declared that in making a comparison with what had been done in other provinces in the way of relief, would react unfavorably on this province.

He quoted figures which showed that more than \$400,000 had been paid to Saskatchewan and its part of the unemployment relief work and charged that he had seen no statement in the Alberta press which would indicate what had been done here.

This last remark drew the fire of Premier Brownlee who said he would be glad to show the Liberal leader press reports dealing in figures with respect to Alberta relief. The Liberal leader cast his thoughts back over the provincial general election and directed some remarks at A. G. Andrews, U.F.A. member "for Sedgewick" for his "avalanche" of congratulations over the Government's success at the polls on June 19 last. Mr. Webster counselled him to cast his eyes on the Liberal section of the house where he would see that some rural ridings formerly represented on the U.F.A. side were now represented by Liberal ranks, namely, Leduc, Wetaskiwin, Placer Creek, Beaver River and St. Paul. He also reminded the House that in the case of the Athabasca riding, in the last House represented by a Liberal and with that member switching over to U.F.A. allegiance, that the riding still returned a Liberal. "Alas, my poor brother," said Mr. Webster, "he was led to the slaughter and canned by the electors of Athabasca."

He stressed the fact that a dissolution of the sixth legislature, Labor had six seats and returned to the seventh legislature with four—this in spite of government blessing. "This," he said, "may be punishment because the leader of the Labor party went into the Okotoks riding during the election and is largely responsible for the Minister of Agriculture being returned to the House."

He then proceeded to analyze the election majorities and quoted the small majorities obtained by some of the Government members, stating that eight ridings grouped together had only netted the Government 996 votes more than its opponents and therefore less than 1000 votes would have defeated the Government—had they been placed in the right ridings. A considerable portion of Mr. Webster's address was devoted to the Lethbridge Northern Irrigation project. He reviewed the history of the project, ending up with the belief that by the time current seasonal estimates were brought down that the total indebtedness of the Province in respect to this activity, would be about \$9,000,000. He thought the time was ripe for the Government to take its loss on the matter, and he said he would support legislation with this in view.

As remedial measures he suggested a complete reversal of past policies which have proved expensive and inefficient relief to the project of excessive capital charges; the assumption by the Government of the exclusive capitalization along the lines suggested by the special investigating commission's report; the deduction of the capital charges to a point and certain industrial and mercantile where settlers could be reasonably expected to live and make good and farmers who have been engaged in settling would have the effect of holding settlers now on the land and encourage colonization, and any other legislation that would implement the lend money on livestock and to deal in livestock, but will be unable to lend on mortgages.

Asked about the recent activities of the Farm Loan Board, Dr. J. D. MacLean, chairman, said the board had been loaning money in Manitoba and Alberta as usual. He did not anticipate any change in the activities of the board.

He urged that every effort be made to place agriculture, Alberta's admittedly basic industry, on a parity with other industries. He cared not whether this objective was gained by bringing the price level of farm produce up to the level of manufactured goods or by bringing the price level of manufactured goods down to the price level of farm products.

NEWSPAPER LAWS

Excerpts from Newspaper Law, printed for the benefit of any reader who may have mistaken ideas regarding same:

1. A postmaster is required to give notice by letter (returning the paper does not answer the laws) if the subscriber does not take the paper out of the post office and state the reason for it not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payment.
2. If any person orders his paper discontinued he must pay all arrears or the publisher may continue to send it until payment is made and collect the whole amount whether the paper is taken from the office or not. There can be no legal discontinuance until payment is made.
3. Any person who takes a paper from the post office, whether directed to his name or another, or whether he subscribes or not, is responsible for payment.
4. If a subscriber orders his paper stopped at a certain time and the publisher continues to send it, the subscriber is bound to pay for it if he takes it out of the post office. This follows the principle that a man must pay for what he uses.

Mrs. Newlywed (to dear friend)—What is the secret of getting a new dress out of hubby after he refuses once?
Mrs. Why—if at first you don't succeed, cry again.

Bill Slow's stock is all out of date, his business is in an awful state — no trade comes to his store. His ribbons, dress goods, coats and hats would scare a belfry full of bats, and cobwebs frame his door. Bill thinks to advertise would cost just twice as much as he has lost in waiting for a buyer.

But Henry Dash across the way, knows advertising's sure to pay — it draws crowds like a fire. So to our office he come down, for the best sales service in the town, announcing special offers. He gives his trade a chance to save; his profits he can closely shave — the volume fills his coffers.

Have our advertising manager call and show you this remarkable Sales Service.

How to Hit Back at The Mail Order Menace

THE TIMES has just "laid in the case" an extensive array of newest type "faces," the last word in neatness of "character" and "up-to-the minute" in style. You can help beat the "mail order" man, save money and incidentally get the best of satisfaction, with every promptness, in utilizing the "TimesPresses" service

It is fully admitted by many business men in towns and villages, that if mail orders encroach as persistently during the next few years as present activities and their increased advertising coverage in these districts indicate, a new system of merchandising will have been evolved in suburban communities.

Under present conditions, the merchandiser in the community centres is faced with the problem of extending credit to his community for various amounts, invariably large, for indefinite periods, while the cash sales, and cash which should be clearing off his book accounts, drift cityward via the mail order. For many reasons such a condition cannot exist long. The business man operating on the credit plan will eventually, be compelled to abolish credit entirely, and with this encumbrance removed enter competition in the "sell-for-cash" market, where he has at least an even break with all competitors in getting the cash with the sale.

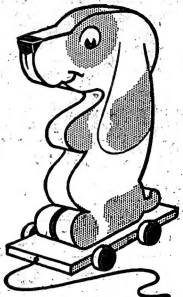

Total elimination of the credit system in any community would mean hardship for a time, but as mutual trust and loyal support are essential to the credit system, the spending of money, to any extent, out of the community is bound to tend toward its destruction.

The privilege of spending a dollar where its purchasing power is greatest, even if such saving is only in the mind of the spender, is a right which cannot be denied anyone.

While a local purveyor of some commodity bemoans the inroads which "buying-out-of-town" has made in his receipts, he will yet place an order with an out-of-town solicitor for an article which he could procure right at home. True, he possibly saves 10 cents on his dollar, but so do his customers who buy out of town—and so the cycle of out-of-town buying goes on toward completion.

None of us are free from its effects: Twelve solicitors from city printeries canvass the town of Wetaskiwin regularly in addition to clothing and grocery travellers, who carry printing as a side line—and apparently they all get business. And this is true in spite of the fact that a phone call will bring a representative from the local printer, with suggestions and estimates, stock, type and ink samples and layouts if desired.

Think of The Wetaskiwin Times the Next Time a Solicitor Talks Printing

WHEN BABIES FRET

There are times when a baby is too fretful or fidgety to be sung to sleep. There are some pains a mother cannot pat away. But there's quick comfort in Castoria!

For diarrhea, and other infantile ills, give this pure vegetable preparation. Whenever coated tongues tell of constipation, whenever there's any sign of sluggishness, Castoria has a good taste; children love to take it. Buy the genuine—with Chas. H. Fletcher's signature on wrapper.

MEDITATION FOR THIS WEEK

Psalms 23—"He leadeth me."
God has a definite life plan for every human person, guiding him visibly or invisibly, for some, exact thing, which it will be the true significance and glory of his life to have accomplished. Away from a man, with thy feeble complaints and feverish despondencies, if God is really preparing us to become that which is the very highest and best thing possible, there ought never to be a discouraged or uncheerful being in the world.

If any man will sell his years for gold His wish shall be fulfilled: houses and lands

Shall come to him, and in his tight clenched hands, Jewels shall lie: he shall have wealth untold.

But he shall lack: friends will be strangely few.

When grief becomes his lot, he must alone

Carry his load; he will be hearts of stone

Who gave the gold by which his power grew.

If any man will sell his gold for love Will live a brother in a world of strife

He shall not lack in aught; his years shall prove

A gift of God to earth; in tumults life He shall walk quietly; no force shall move

Him from the path he chose—The Way of Life.

FIFTY PER CENT CUT IN FREIGHT RATES TO AID MOVEMENT FEED CATTLE

Winnipeg, Jan. 30.—Railways have promised a 50 per cent reduction in freight rates on cattle sent from ranches to feed farms, declared Hon. Robert Weir, minister of agriculture, here today. The minister said he had secured this promise from the railways. When feeding is finished the cattle will be shipped on the direct export route from farms to the Old Country, he added.

By this means toll for commission and stockyard charges amounting to between \$17 and \$25 a carload will be saved, Mr. Weir said.

The 50 per cent reduction in the freight rates will effect a saving to cattlemen of \$50 a carload.

Here and There

(505)
Atlantic coast lobster fishermen fared well in 1930 in catch but not so well in prices. Nova Scotia fishermen landed a record catch of 530,000 pounds, of which 126,800 pounds were shipped in shell while 4,024 cases of canned lobster were packed.

Boxing on snowshoes will be one of the novelties at the Banff Winter Carnival opening February 7, marking another point in the great battle for popularity honors between snowshoes and skiers.

George Sutherland, Alberta flyweight champion 1926 will be in charge of the bouts.

Roaring down from Edmonton through the Bow River Gap through which 50 years ago the first C.P.R. survey party made its laborious passage, airplanes bearing aquatic stars will steer for Banff where their passengers will take part in the open-air swimming and diving events, unique in winter sports, in the hot springs at the Banff Winter Carnival on February 9.

Toronto and Ontario recently honored their Grand Old Man of railroading, William Fulton, assistant general passenger agent for the Canadian Pacific Railway at Toronto, who had completed 40 years' service with the company. He was guest of honor at the Royal York Hotel at a banquet given in his honor by his fellow-officers of the company to celebrate the occasion.

Letters pour into the radio department of the Canadian Pacific Railway daily in connection with the "Melody Mike" feature every Monday night. One lady, writing from Vulcan, Alta., says in part: "There were six in my house listening to the broadcast and I know of at least a dozen other radios that were tuned in. . . . I am writing to say how much we enjoyed your broadcast."

Postal history repeated itself February 2, when an air mail service between Winnipeg and Pembina, North Dakota, on the international boundary, was put into effect by the Canadian Postal Department. "Pembina" was linked up with Winnipeg, then Port Garry, in 1857 through the United States mail service. The prairie airmail postal service will be extended by the Federal Government in the near future.

At the fifth corn show held recently under the auspices of the Saskatchewan Corn Growers Association, one of the finest exhibits of corn in the history of Western Canada was on display. The show was held in preparation for the World's Grain Exhibition and Conference at Regina in 1932, and many entries in the corn classes of the latter may be expected from the farmers of Western Canada. A total of \$15,000 is being offered in cash prizes in the different classes for corn.

Snowshoers from many parts of Canada and the United States gathered at Quebec City at the end of January to participate in the 18-mile Snowshoers Marathon and International Championship Races. The Mayor of Quebec held the reception for the ladies' clubs at the Chateau Frontenac where a Canadian supper was later served to the visitors. The Chateau Frontenac was also headquarters of the officials throughout the convention, which included ice canoe races on the St. Lawrence and exhibitions on Dufferin Terrace.

MILLET LOCAL NEWS

W. Heupel left on Monday for Calgary to attend the Dairy Convention.

Mrs. H. Phillips is at Edmonton this week attending the Trustee's Convention.

Miss Annie Smith spent the week and the home of Mr. and Mrs. T. Noonan.

The many friends of Mr. G. Just are pleased to see him about again after his illness.

The ice on the rink is getting poorer owing to the warm weather. Many of our young people are beginning to lament already.

The Millet I.O.O.F. Minstrels put on their local talent play in the Rundle Street United Church, Edmonton, on Tuesday evening.

Last Wednesday evening the Wetaskiwin hockey team played the local team on the village rink. The score was 11-2 in favor of Millet.

Mrs. Roy Ferguson, Mrs. Carl Rodney, Mrs. Plant and Miss Camp are in Edmonton this week attending the Woman's Auxiliary annual meeting.

***The W.A. will hold a card party at Mrs. Bear's, on Thursday, February 12th. Cards at 8:30 sharp. Straight whist will be played. Good prizes.

Mrs. Ira Benham of Sunnybrook, who has been visiting her parents, Mr. and Mrs. G. Wolfe, left last Friday for Hardisty, where she will visit other relatives.

Mrs. Killet, who has been visiting at the home of her parents, Mr. and Mrs. G. Wolfe, and other relatives here, is returning to her home in Spokane, Wash., next Friday.

Forty-seven years ago someone in the House of Representatives was talking about tariff on wool and other articles of commerce. Politicians have not changed very much, apparently.

The regular meeting of the W.I. will be held on Wednesday, February 11th, at the home of Mrs. H. Brinker. Nurse Conroy, of the Department of Health, will address the meeting. All ladies are cordially invited to attend.

The old time dance given by the Millet I.O.O.F. in Pinyon's hall on February 2nd, was a grand success.

The hall was packed to the doors and the music was excellent. The lucky ticket was held by Miss Mary Stumker, the prize being 100 lb. of flour.

A number of friends and relatives gathered at the home of Mr. and Mrs. E. Pogue last Friday in honor of the birthday of Mrs. Herbert Pogue. The evening was spent at cards, after which refreshments were served by the hostess. Mrs. Pogue received a number of very nice gifts.

The Chicago markets of 1884 tell us that "Minnesota Bakers" flour was \$4.50 per cwt. That wheat was in fair demand, January, 92c, February, 92½c, March 93c, and May 93½c.

Winter wheat 98c, oats 32½c per bushel in January and 36½c in June. Rye 58c per bushel and barley 61c, corn, January, 51c per bushel and June 58½c per bushel. Pork in January was \$15.70 and in May \$16.15. Whiskey, \$1.16.

Mrs. E. M. Furlong of Millet, Alberta, Canada, and Mrs. Ben Conlee of Lincoln, Neb., were out of town guests at the home of Mrs. G. W. Steinmeyer, who gave a one o'clock luncheon to a few friends on Thursday, January 15th. The afternoon was spent at bridge. Miss E. Weston won highest score, and Mrs. H. L. Harper second high. The guest prize went to Mrs. Simmons.—Beatrice Daily Express.

Mr. Wagner, Sr., has just brought the correspondent two old newspapers of the Beatrice Daily Express dated Jan. 30th, 1884, and its Valentine issue of February 14th, 1888. An article on foreign news in the former issue reads: St. Petersburg, Jan. 29th, 1884. (Sablotoff, officer of the gendarmes, sent to Kharkeoff by the Russian government to investigate Nihilism, was assassinated on the 26th inst. The police have discovered a plot for an uprising of the peasants in Little Russia, also a scheme for putting strychnine in the Czar's bread.

As Mrs. John Mainie and Mrs. Ed. Kinchella, accompanied by Masters Gerald Scott and Leo Kinchella, were motoring west on the Pigeon Lake trail last Sunday morning, the car skidded into the ditch at Mr. Haughstall's corner. Although the car landed right side up, Mrs. Kinchella was thrown from it. The other three occupants remaining in the car were uninjured. Mr. Haughstall came to the rescue and took the two ladies back to Millet, where Dr. Simpson found Mrs. Kinchella was suffering from a broken collar bone and minor bruises. The car was not injured. Mr. Ned Tirro, accompanied by Masters Gerald and Leo, went on to Pigeon Lake.

HILLSIDE JUNIOR U.F.A.

The regular monthly meeting of the Hillside Junior U.F.A. was held at the home of Miss Edith Heupel on Friday evening, January 23rd, with most of the members and a few visitors present. The roll call was answered with "What I think should be the object of the local for the year."

Lilly Leader gave the financial report for 1930, showing a balance on the right side.

Considerable discussion arose regarding the concert to be held at the schoolhouse on February 13th, and it was decided to have a Valentine box social and concert to be followed by a dance.

A letter was read from the Telford Junior U.F.A. asking Hillside to attend their next meeting at Telford school on February 21st, with a view to arranging a debate. This was accepted unanimously.

The meeting then adjourned and a delightful lunch was served by the hostess.

The next meeting will be held at the schoolhouse on February 20th.

HOADLEY MAY GO TO LONDON OFFICE

Edmonton, Jan. 30.—Members of the legislature here are asking those who are in a position to discuss the matter is that the Green-disc role is likely to fall on the shoulders of Hon. George Hoadley, veteran member of the house and a native of Cumberland. It is felt that Mr. Hoadley's long and close association with matters of agriculture and immigration in Alberta would well qualify him for the post.

MILLET LOCAL NEWS

BORN—At Millet on February 1st, to Mr. and Mrs. Sam Smith, a daughter.

Mr. H. W. Furlong shipped a purebred Tamworth pig to Mr. Taylor of Lloydminster, on Tuesday.

The Boy Scouts will hold their regular meeting on Friday evening in the Community hall at 8:30 p.m.

Mr. Robt. Meredith of Calgary, is visiting at the home of his aunt, Mrs. H. A. Lee of Millet, this week.

The choir of the United Church will hold a Valentine social evening on February 14th. Special music is being prepared.

The old time dance held in the Community hall last Friday evening was well attended. Everyone reports having an enjoyable evening.

Mr. and Mrs. F. R. Winter and Harold, and Mr. and Mrs. G. Just were weekend visitors at the home of Mrs. Just's sister, at New Norway.

Mr. and Mrs. Wm. Van Alstine of Wetaskiwin, visited at the homes of Mr. and Mrs. Lloyd Wolfe and Mr. and Mrs. G. Wolfe last Sunday.

Messrs. J. Maine and E. Kinchella, who have been working at the McLean and Green mill at Pigeon Lake, motored into Millet on Sunday afternoon.

The many friends of Mrs. John Haines, who underwent an operation in the Wetaskiwin Hospital last week, are pleased to hear she is now progressing very satisfactorily.

Under the able leadership of Messrs. Moore and Clark, our local Boy Scouts and Cubs were on parade at the United Church last Sunday evening. Thirty-four boys attended the ceremony and took part in the parade.

A large senior audience was also present, in fact more than could be seated in the church. Millet is very proud of her boys.

WEEKLY STOCK MARKET REPORT

The following is a weekly report from the Edmonton Stock Yard, prepared by a Times representative, for the week ending February 3rd:
Receipts: Cattle, 685; calves, 102; hogs, 2380; sheep, 609.

The cattle market so far this week is showing a decidedly dull tone; trading is slow, buyers indifferent and salesmen are finding difficulty in clearing their offerings. There are quite a few cattle still held over from last week. In fact, prospects are not bright. Prices on the whole so far this week show a decline of 25c per hundred, particularly on the heavier kinds of butchers.

Bulk of the good fed calves selling at \$6.50 to \$7.00, choice might bring \$7.50. Good to choice steers \$5.00 to \$5.50, common to medium \$4.00 to \$4.75. Good butcher heifers \$5.00 to \$5.25, common to medium \$4.00 to \$4.50. Bulk of the good to choice cows \$2.25 to \$3.75, common to medium \$2.50 to \$3.00. Canners and citters \$1.50 to \$2.50; bulls \$2.25 to \$3.00.

Fair action is noticeable on the stocker and feeder market. Stocker and feeder steers \$4.50 to \$5.00, heifers \$4.25 to \$4.75 and cows \$3.00 to \$3.75.

The calf market remains fairly steady. Good to choice light vealers selling at \$9.00 to \$10.00; heavy calves are slow movers, common to medium kinds selling at \$5.00 to \$7.00.

The hog market is unsettled and tending lower. Today, hogs sold at \$7.60 and \$7.75 for bacon, selects bringing a 50c premium and butchers \$7.50 to \$7.75 and cows \$3.00 to \$3.75.

Cuts on the offgrades are unchanged and as follows: Heavies \$1.50, extra heavies \$2.50, No. 1 sows \$2.50, No. 2 sows \$3.00 to \$4.00, rough hogs \$4.00. All sales being made on a fed and watered basis.

The sheep and lamb market is inclined to be slow, dull and weaker, particularly lambs. Bulk of the good

Too Much ACID

MANY people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore. "Milk of Magnesia" has been the U.S. Registered Trade Mark of the Charles H. Phillips Chemical Company since 1875.

Butcher lambs quoted at \$6.50 to \$6.75, choice ones might bring a little more, yearlings \$6.00 to \$6.50 and ewes \$3.50 to \$4.50.

When you need printing in a hurry. When it simply must come through. When the job is mighty particular—Let The Times do it for you!

Suffered From Heart Trouble Became Weak and Run Down

Mrs. Wm. Dittie, Glensandfield, Ont., writes: "For a long period I suffered from heart trouble, and became very weak and run down. I tried various remedies, but they did me no good. "One day I met a friend and told her of my trouble. She said she had had heart trouble for two years too, but after using Milburn's Heart and Nerve Pills for a short time she had been relieved of her trouble, so I got two boxes, and after taking them I was again feeling fine, and always recommend H. and N. Pills to anyone complaining of heart trouble." Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Stop Us! if you have heard this one

"My Dear, I simply dread this daily shopping!" How many times have you heard that story? More than once, we'll bet a hat. And if you ask the woman who "dreads shopping" just why she does so, you'll usually hear something like this:

"It takes so much time! I start out and look and look and look—and by the time I've found what I want I'm dead on my feet. All in, my dear. I mean I actually am!"

You can do a friend like that a real service. Ask her if she reads the advertisements. Usually she'll look surprised and say, "Not very often. What has that to do with it?"

Tell her how you have your mind all made up before you hang the market basket over your arm—how you're able to save steps, budget your expenditures neatly, get what you want—and all with a minimum of time and effort. Simply because you have the news of the shopping world at your finger-tips all the time by reading the advertisements every issue.

ADVERTISEMENTS ARE NEWS.

Ruth Chatterton with Clive Brook in
"ANYBODY'S WOMAN"

From the story by Governor Morris. The sensational story of a woman who stole a man's name—but couldn't win his heart. Is it fair for a woman to marry a man whose station in life is far above hers, when he doesn't realize the seriousness of his act and she does? She has given her heart to one man but still they call her "Anybody's Woman"—see why.

"DOWN WITH HUSBANDS" and PICTORIAL REVIEW

Thursday, Friday, Saturday Feb. 12-13-14

Convention of Young Lutherans

Beginning with Friday, the 6th, and ending on Sunday, the 8th, the Annual Winter Conference of the Northern Alberta Division of the International Waltham League will meet at Brightview (Rev. Ohlinger). Speakers from various parts of Western Canada will give addresses, and a very fine gathering of young Lutherans is expected.

Following is the program:

FRIDAY EVENING—7:30-10:30, First Session.

7:30—DEVOTIONAL, followed by the Address of Welcome by Rev. Ohlinger.

8:10—INSPIRATIONAL: "Saved," Rev. G. Raedeke, Camrose.

8:45—ILLUSTRATED LECTURE: "The World Is Our Field," Rev. Thies.

10:45—DEVOTIONAL—Close.

SATURDAY—

9:30—DEVOTIONAL EXERCISES.

9:40—INSPIRATIONAL, Rev. W. C. Elfert, Leduc, President Alberta and B.C. District of the Missouri Synod.

9:55—ADDRESS: "Saving the Younger Brother," Rev. Boettcher, Edmonton.

10:20—"Preparing Ourselves to Serve," Rev. W. Raedeke, Calgary.

11:00—"Our Juniors," Rev. Kurling, Junior Secretary, Blueberry.

11:20—"Recreation," Rev. Mettler, Markerville.

11:40—"Serving By Personal Mission Work," Rev. Boettcher.

12:00—2:00—RECESS.

2:10—INSPIRATIONAL, Rev. Zacheoche, Fentelash.

2:20—"Our Church in Alaska," Rev. Kurling.

2:50—"Our Home Missions," Rev. C. Thies.

3:20—RECESS.

3:45—"The Stranger at Our Door," Rev. C. Thies.

4:10—"Stewardship of Life," Rev. W. Raedeke.
